Attention: Ms Florence Tan
Chief Operating Officer

Dear Florence,

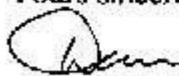

Re: Letter of Commendation

MARIS has been one of the pioneer users of ANSYS FEA package in Singapore company has been adopting the software since 1993. Since then, I find that the friendliness of the ANSYS have been improving incrementally particularly in the the graphic user interface as compared to the command base input of earlier days.

Being a ANSYS' user for more than 7 years, I find that the FEA solution indispensable tool in solving our daily engineering problem. Knowing that the effective implementation of all software depends very much on the user's lever of competence applying it, the quality of pre and post-sales support and service provided by the software distributor on the software is therefore vital. Since 1995 when CAD-IT took over account, I enjoy the personalized level of service provided by your ANSYS team since then Dr Moses Chan till today Mr. Wang Wenping & Miss Susan Goh. technical support staffs are very supportive and helpful, I hereby wish to express gratitude to the services and support provided by your company.

I hope that your teams will continue to extend your prompt service and support to the forth-coming years.

Yours sincerely,

Wan Kok How
Deputy Principal Engineer (Section Head)
CAE Group & New Product R&D Group
