**Attention: Ms Florence Tan**  
**Chief Operating Officer**

Dear Florence,

LETTER OF COMMENDATION

NUS Computer Center has acquired ANSYS Academic and Fluent in year 1998, as softwares of choice to conduct Fluid Dynamics analysis. Having used ANSYS solutions for over the past years, we trust that this software will enable us to advance in our simulation work and perform fluid dynamics analysis with its comprehensive and user-friendly aspects.

CAD-IT Consultants, being not just a mere ANSYS distributor who sold us the software, but also provides us with excellent after-sales support and service which enabled our users to produce commendable results within a short time frame. I would like to extend my gratitude to the very supportive and responsive team of administrators and engineers who made the practical usage of ANSYS possible.

We hope that CAD-IT will continue to extend your prompt service and support to us in the forth coming years.

Yours Sincerely,

Wang Junhong  
Systems Engineer  
Supercomputing & Visualisation Unit
