Dear Florence,

LETTER OF COMMENDATION

We would like to extend our commendation to CAD-IT Consultants (Asia) Pte Ltd for supplying and supporting the ANSYS solutions to STMicroelectronics Singapore.

ANSYS is a user-friendly FEA solution, especially with its coupled field capabilities to allow us to move into Multiphysics studies as well as drop test studies using LSDYNA's powerful explicit solver, and package design using ANSYS mechanical. This has greatly facilitated our company in building our strength in the R&D area.

Over the years, you and your team have demonstrated very professional delivery on closing technical issues raised. This in part was due to your competent and capable technical support team. Their responsiveness and eagerness are very much appreciated.

Thanks Again!

Yours Sincerely
STMicroelectronics Pte Ltd

Luan Jing En
Senior R&D Engineer (CAE Team)
